

Welcome to the new “**Members Only**” section of the website CCGTCC.com

Although the club’s website will continue to evolve over time, we have rolled out this simplified version to help our members become comfortable with our new online presence. Some features that users will see when first logged on (instructions for logging on start on the next page):

Simplified Renewal
Process

ChipGuide.com

Easy access to all the club's
magazines from the current issue, all
the way back to 1998's Issue #1.

**MORE TO
COME**

Accessing the Members Only Section and the Magazine

This will be an in-depth walk-through of how a member signs up for the first time (if needed) and how to access and navigate the new magazine.

Do you already have Member's Only access?

To know whether you have access already, ask yourself this:

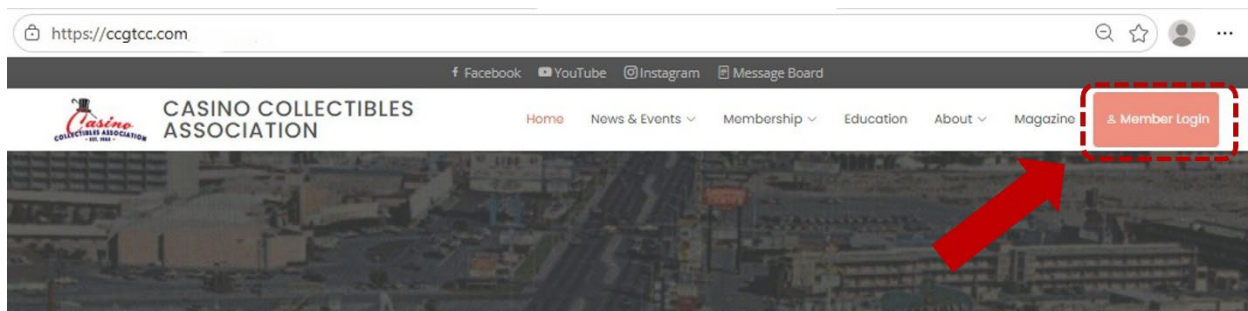

- Is my membership current?
- Does the club have an email address for me?
Do I receive Newsletters via email?
- Have I ever logged onto ChipGuide.com with a password?

If the answer is YES to all of the above, you should be good to log straight in (skip to “Step 3: Logging into the Members Only section”). If you said NO to any, or are unsure, follow these steps to get started.

Step 1: Setting up your Member's Only account.

Setting up an account with the CCA is easy for members.

- On your computer, tablet or phone, go to www.ccggtcc.com
- Select the “Member Login” box in the upper right hand side of the banner and proceed to “Step 2: Getting a password”.

Step 2: Getting a password

Getting a password is simple, and only needs to be once!

- On the login screen, locate the “First Time” section and select “register online at the Chip Guide”.

Note: even if you already have an account, these steps can be taken to retrieve a forgotten password.

This section is for active members of the Casino Collectibles Association. It contains information and features that are only available to members.

First Time
To access this section, members must register online at the Chip Guide.

Membership
If you are not a member, and are interested in joining, you can join by visiting our membership area which contains a list of benefits of becoming a member. You can register online or by mail using the downloadable form.

For any questions relating to membership, please reach out to our membership officer.

- You will be taken to the “ChipGuide Password Reset” screen where you will simply put in your club membership number and select “Submit”.

ChipGuide Password Reset

Enter your CCA Membership# (4 digits) 9995 Associate? Select Submit

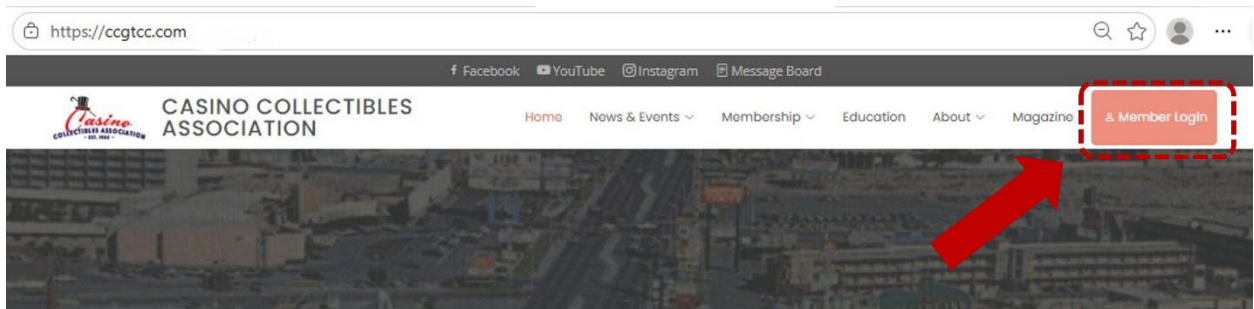

Message: Email has been sent to your email on file with the CCA with instructions to complete password reset. The link will be active for only 10 minutes. If you do not receive the email, contact webmaster@themogh.org

- You should receive an email to the address on file with the membership officer with a link to set your password.
Troubleshooting: If you don't receive an email, first check your spam folder. Next contact the club's Membership Office at membership@ccgtcc.com to check what email address the club has on file.
- Follow instructions to reset your password and you are now registered!

Step 3: Logging onto the Members Only Section

Once you have an account, you are ready to enjoy the club's Member's Only content, including the digital magazine. Follow these easy steps to access.

- On your computer, tablet or phone, go to www.ccggtcc.com
- Select "Member Login" box in the upper right-hand side of the banner.

- On the Members Login page, fill in your member number and password on the left-hand side. (Note: associate number is optional).
Troubleshooting: If you have forgotten your member number or password, there are links to retrieve those there.

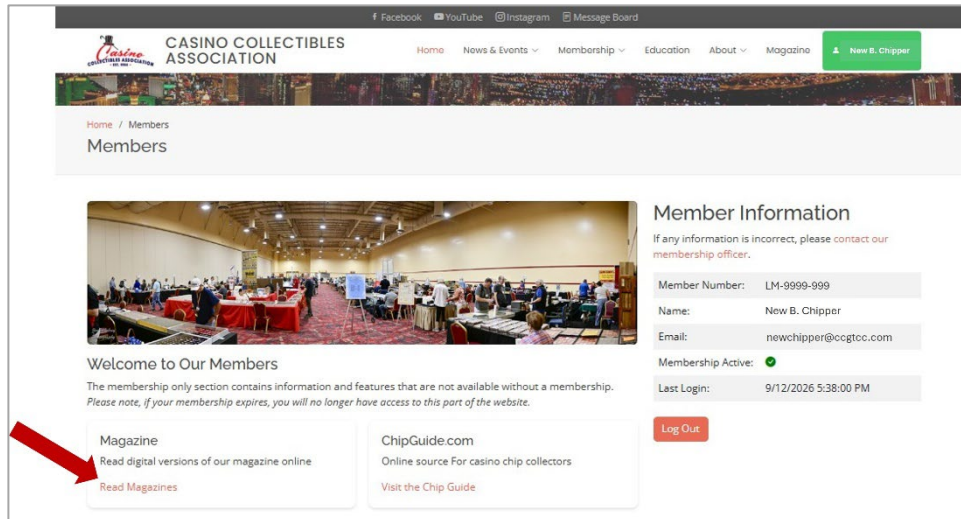

A screenshot of the 'Members Login' page. The page has a breadcrumb trail: Home / Members / Log In. The 'Member Login' section contains a 'Member Number' field with '9995' entered, a 'Lookup Member Number' link, an 'Associate (Optional)' dropdown menu, a 'Password' field with masked characters, a 'Show Password' checkbox, a checked 'Remember Username and Associate' checkbox, a 'Login' button, a 'Cancel' button, and a 'Forgot Password' link. To the right, there is a large photo of a casino floor and text explaining that the section is for active members. Below the photo, there are sections for 'First Time' (linking to the Chip Guide) and 'Membership' (providing information on how to join).

- Select the "Login" button and you will be logged into the Member's Only page and ready to enjoy.

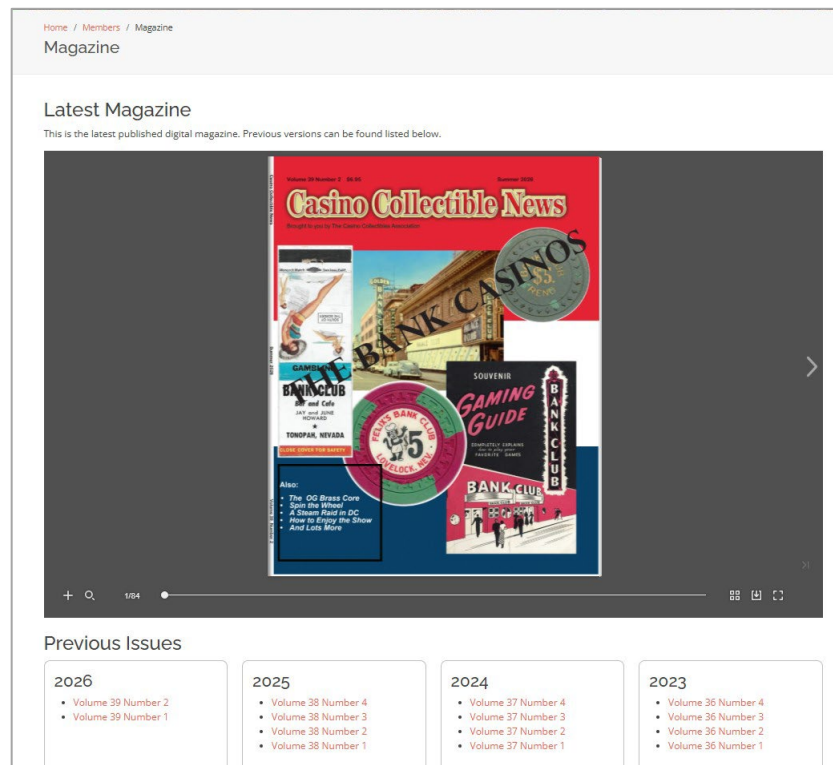

Step 3: Accessing the digital magazine

Once you are logged into the Member's Only page, you now have access to all the magazines the club has published.

- On the main member's page, select the "Read Magazines" link below the Magazine section.

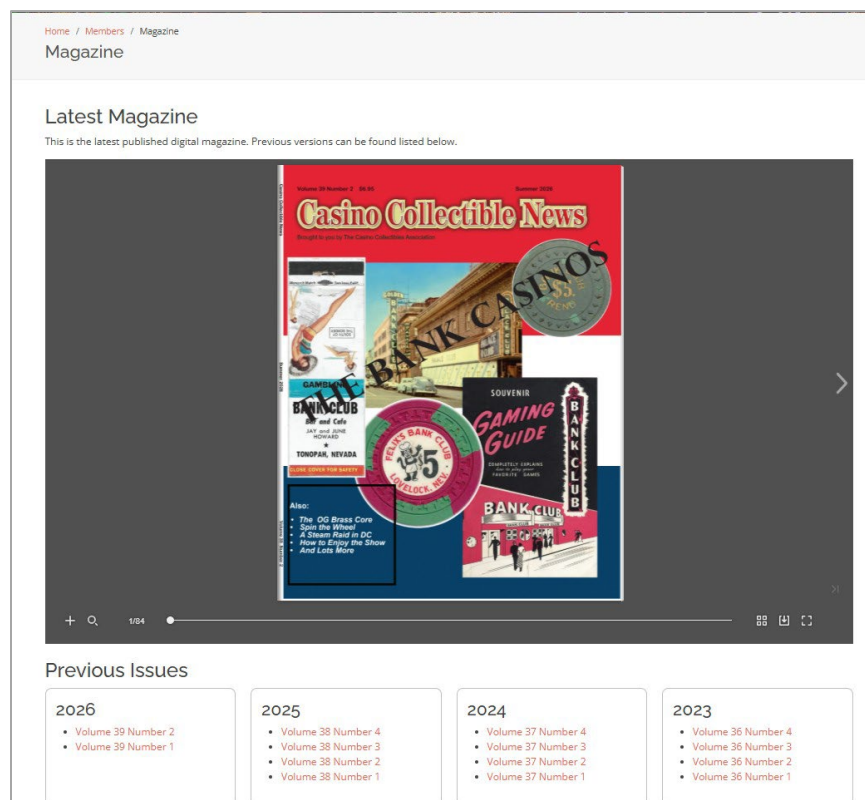

You will now be on the Magazine page where you can view the most current magazine along with those issues from our historical library.

Using the Digital Magazine Viewer

For those of you who are familiar with online reading content, you can likely skip this tutorial and go straight to the magazine. As discussed earlier, we chose this interactive viewer because it has a good blend of functionality and ease of use. We hope to expand its capabilities later, but for now, we understand it will take time for users to get comfortable with this new format.

Let's take a tour of the viewer and go over some useful tools.

The first thing you will notice is that upon entering the magazine page that the most current magazine will be featured in the viewer, and previous issues of the magazine will be listed by year below.

If you want to view a previous issue, select the issue number and that magazine will appear in the viewer.

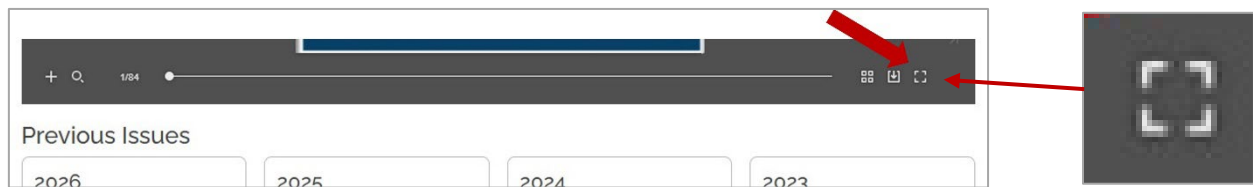

Reading the magazine

The online magazine is designed to work as similar to a printed version as possible. However, there are additional features to make the magazine easier to read and navigate.

Full Screen Mode

For most users, the magazine window is too small to read. However, it is very easy to expand the magazine so it takes up the full screen, making it easier to read. To expand into full screen mode:

- Select the “full screen” icon at the bottom of the viewer.

This will cause the magazine to take up the full screen to make it easier to read.

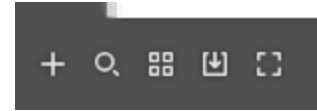

Turning Pages

Once the magazine is loaded onto the screen, there are a few ways to navigate through the pages.

1. Using a Mouse – When using a mouse, turning the page is as easy as selecting the arrows on the far left and right of the screen or simply the left side or the right side of the magazine. This will “turn the page” in that direction.
2. Using a Tablet or Phone – When using either a tablet or a phone, selecting the left or right side of the screen will work exactly as it does with a mouse. However, you can also simply swipe left or right on the magazine which will “turn the page” in the direction swiped.
3. Using Thumbnails – A row of thumbnails can be loaded by selecting the Thumbnail icon in the lower right side of the screen. Exact instructions and screenshots are provided in the next section.

Other tools:

To further enhance your reading experience, look at the icons at the bottom of the full screen view.

Zoom

Pressing the plus icon automatically zooms in 2x. From there, by using your mouse, fingers or the toolbar that shows at the top of the screen, you can zoom in even further up to 4x.

Search

This feature isn't quite ready for "prime time", but eventually it will be able to search the magazine for keywords and subjects. We haven't fully converted the issues to optimal use yet, so this feature is still experimental and may not function perfectly as we continue to work on it.

Thumbnails

This will open a ribbon of small thumbnails of the pages to the magazine that you can select for quick jumps. Some users may find this easier than flipping pages.

Download

Because there was so much interest from the members that they should be able to download the magazine *for their own personal use*, we have made this option available. Members can download the magazine to their devices for use when an internet connection is not available (airplanes, etc) or if they would like to have them printed by a third party. Many associations like ours do not have this option because it can be abused.

The club maintains that the magazine is for members' personal use only and reserves the right to disable the download function if it is being abused or the magazine is distributed without permission.
